Request for Expansion of Grilled Area Within Records Center

25X1

1. Arrangements have been made with the Post Engineer, to proceed with the construction of an area in the Records Center to store an additional 600 cu. ft. of records. This work will be done as soon as possible, probably some time after the first of next year.

2. In the meantime, arrangements can be made to take care of any records you wish to be included in your special area by temporarily housing them in the adjacent grilled area used by the DD/I.

3. Please let me know if I can help you further.
